Professional Profile

A forward-thinking and innovative developer and IT professional is offering valuable experience in Agile environments. Possesses vital knowledge and a successful track record in RESTful API development, HTML, CSS, JavaScript, and ReactJS front-end development. Translates comprehensive and complex client requirements to ensure full functionality and reduced errors within allotted timeframes and budgets. Maintains up-to-date knowledge of industry best practices and proven methods while continuously taking advantage of further training and development. A skilled communicator and problem-solver who thrives in high-pressure and fast-paced scenarios while remaining adaptable and flexible as a team member in ever-evolving environments.
